CHINA RILED

At the Course Recently Taken by the United States

In Again Putting Up the Bars to Chinese Citizens.

The Ming Gee, a San Francisco Chinese Newspaper, says the Emperor has signified his willingness to prohibit relations of any kind between China and the United States.

PHILADELPHIA, May 9.—A movement was recently begun to call the return of all the Chinese in the United States to China in consequence of the exclusion bill.

A few days ago a conference of the Chinese of Pennsylvania, Maryland and several other neighboring states was held in this city and attended by hundreds of the more influential Celestials. Delegates attended from many cities, but all the doings are kept a profound secret. The convention adjourned Friday.

These meetings have been held in Baltimore, but the fact leaked out and was published in the Baltimore papers. The paper, "Gong Ho," the Baltimore organ of the Chinese Masons, issued an edict transferring the meetings to Philadelphia. The main subjects discussed were the articles published in "The Ming Gee," and other weekly publications in San Francisco by Wan Kee, the editor, which are detailed the public meetings which have been held in China, particular attention being called to the one addressed by the emperor himself. The article reads as follows:

"Our country has at last awakened to the fact that its children and their paternal and ancestral gods have been unmercifully imposed upon. Why does not our government take steps to redress the wrongs of our American brothers?"

One excited delegate vehemently declared the president's action to be a "dirty Irish trick," and further said that the bill was signed "solely to catch the Irish vote." Of course the delegates who were present excepted that the resolution—that is the language—strongly objected to this statement being made and it was withdrawn for the time being, thus preventing an unseemly wrangle.

"What'll the result be?"

This action is almost sure to create a political-religious breeze that may develop into a cyclone before the month is out. News has just come from China that the government is making vigorous efforts to suppress the anti-exclusionists there. One poor wretch was allowed to death as a penalty for harboring and maltreating some foreign residents.

The bill confessedly violates the terms of the treaty of 1860, but it is the same providing for the same of certificates to Chinamen already in the country will work hardship and injustice and drive out of the United States Chinamen.

When the law is enforced, the Chinese will be harassed by officers of the Pacific coast, who really resent the right of the almond-eyed intruder to existence.

Now, if the compromise bill which the president signed satisfies the Celestials, one Methodist missionaries in the Flower Kingdom may find it going hard with them in their person and property. It is certain that they will not count courtesy for their religion.

But then there are conditions which must be satisfied. If we ask our home government to enforce these restrictions, it is made imperative that China return to native health. If anyone has not the means, proper transportation will be provided for him, and it will be understood by all that in case the action is taken by our government and we acquiesce in it, the Chinese will be allowed to leave the country.

It is the opinion of the Chinese that the order to leave the country criminally himself in the eyes of the all-seeing ministry, and will in case he treks the flowery ways later in life, do so at the expense of his head. So the poor Chinese will be well advised to leave the country in a commercial sense.

But then there are conditions which must be satisfied. If we ask our home government to enforce these restrictions, it is made imperative that China return to native health. If anyone has not the means, proper transportation will be provided for him, and it will be understood by all that in case the action is taken by our government and we acquiesce in it, the Chinese will be allowed to leave the country.

A meeting was to be held in Boston, but was postponed and it was suggested that Tent minister at Washington be asked to attend and give his opinion on the movement. The Chinese, who were greatly interested, sent a telegram to the Tent minister, asking him to accept the invitation being accepted, as they say that the minister by so doing would compromise himself. Thursday night, Jo Chung, one of the leading lights, arranged the meeting for over two hours. Gong Ho also made an address.

To THE VOTERS OF CRITTENDEN

the past two years as Sheriff, I take
this method of expressing to you my

endorsement at your hands, I an-
nounce myself as a candidate for re-

Democratic Convention.

Pursuant to the instructions of the

a mass meeting of the Democ-
rats of Crittenden county is hereby
called to meet in Marion on Saturday,
May 14, 1892, at 2 o'clock p.m.,
for the purpose of appointing
delegates to the State convention to
be held in Louisville, May 24, for
the purpose of selecting delegates to
represent the Democrats of Ken-
tucky in the National Democratic
Convention at Chicago in June.

J. W. Blue, Chmn.

The President's household is not
happily.

Mrs. Blaine is taking a hand in
the Presidential fight. It is said in a
Washington dispatch in this morning's news that she has it in for Har-
rison because he refused to make
her late son Walker Blaine Solicitor
for the Department of State. This
is authentic, it means a very black
eye for President Harrison.

We are in receipt of the State
Geologist's report on the progress of
the survey in Kentucky. The re-
port shows that good work has been
done by the Geologist, and that Ken-
tucky, when the report is completed
will be in shape to let the world know
what is under the surface. Referring
to the survey in this section Prof
Proctor says: "Mr. E. O. Ulrich
had previously done the geologic
field work in Caldwell and Crittenden
counties, but additional field
work was made necessary by obser-
vations in those and the adjoining
county of Livingston." This was
completed, and he is now engaged
in preparing the report on these two
counties for publication.

If the Democratic doctrines were
ever right, they are supremely right
now. "Equal rights to all and special
privileges to none" is sound doctrine.
Let the sunshine of a Republican
government fall with its liberal rays
upon the rich and poor, the high
and low, the farmer, the doctor,
the lawyer, the artist and the
artisan alike. Give no man, nor
class of men, no corporate nor
company, nor any other creature,
advantages that all do not enjoy. In
the battle for bread, in the rush for
wealth, and in the race for honors
let industry and ingenuity, honesty
and intelligence be unshaken by
any law that puts the goal within
easier reach of one man than another.
This is democracy.

COLUMBUS DAY, OCT. 12.

A Message to the Public Schools of America.

LOCAL OBSERVANCES SUGGESTED.

The Day Should Be Observed in Every Town and Village in the Republic by a Local Celebration of Which the Public School Is the Center.

To the scholars of the public schools of the United States the executive committee of the Columbian public school celebration sends the following message:

The 12th of October, 1892, the 400th anniversary of the discovery of America ought to be observed everywhere in America.

The day will be marked in Chicago by the dedication of the Columbian exposition grounds. The day also may be signalized in every town and village in the republic by a local celebration of which the public school is the center.

The public schools of the republic will form the nucleus of the celebration in all these local celebrations. A national public school observance simultaneous with the Chicago exercises will awaken a popular interest in the coming exposition. Far more important is the fact that the public school has the right to occupy the most prominent place in the celebration. The public school is the one characteristic institution which links all the neighborhoods together, and can thus furnish a common basis for a national celebration. The public school is the ripe fruit of the four centuries of American civilization. The public school of today sways the hundred years to come.

How It Came About.

The first approval of this suggestion came from the public school scholars themselves. When the plan was first proposed by The Youth's Companion, January, 1891, thousands of letters were received, testifying to the enthusiasm with which the scholars responded.

The world's congress auxiliary of the Columbian exposition then took up the proposal, calling upon all the people of the republic to observe the day in their own communities, suggesting that the public schools be everywhere the centers of the celebration.

The superintendents of education were the next to recognize the fitness of giving to the public schools the first place in this Columbian anniversary. At their national convention in Brooklyn in February, 1892, they took charge of the movement, and appointed the undersigned an executive committee to lead the schools in their commemoration.

Appeal to the Scholars.

This executive committee now appeals to the scholars themselves to do the right to move. It is for you, scholars of the American public schools, to arouse a sentiment in your schools and in your neighborhoods for this grand way of celebrating the finding of America. Educators and teachers will meet you from their side. But it is for you to begin.

There are \$3,000,000 now in the public schools. You have the chance to conduct a patriotic movement which will have a place in history, and will strengthen the republic through the coming century.

What to Do.

The first thing to do is to determine, when you read this message, that you will do all you can to induce your school to enter the celebration. Then show this message to your teachers; every patriotic teacher will be glad to help you if you show yourselves in earnest. Take the message to the school committee and the superintendent—their consent and aid are indispensable.

After you secure the support of all the scholars in the school vote that it will enter the celebration.

The next thing after this public vote will be the appointment of a strong committee made up jointly from citizens, scholars and teachers to take charge. The committee should in all cases consist of those most in earnest, so that the work may not be checked by any possible change of teachers during the summer.

The Program.

A programme of exercises will be furnished by the executive committee. It will be simple and adapted to any school, yet so arranged that more elaborate exercises may be added wherever desired. The aim of this official programme will be that certain leading exercises may be the same in every school in the republic, and that at least in one feature the Chicago programme and the school programme may be identical.

In due time this executive committee will make further suggestions.

The Local Committee.

The duty of your committee will first be to interest the citizens and prepare the school. Programs may be arranged. The very best method is to have a general assembly to escort for the schools. The other military, civic and religious organizations of each town will lend their aid if they see that the schools are determined that the celebration shall be worthy of the day. The local press will be the most valuable of all supports.

On Oct. 12 the stars and stripes should be floating from every school house in the republic.

It is the hope of the friends of common school education that not one public school in the United States will allow itself to be left out in this most memorable celebration.

Executive Committee.

Francis M. Pease, chairman, representing Youth's Companion, Boston.

John W. Dickinson, secretary of Massachusetts board of education.

Thomas B. Stockwell, commissioner of public schools of Rhode Island.

W. R. Garrett, superintendent of public instruction of Tennessee.

W. C. Hewitt, superintendent of Michigan educational exhibit at World's fair.

CAUGHT WITH \$4,600.

A Snack Thief in a Bank at Mount Sterling, Ky.

Mount Sterling, May 7.—Friday morning while John Rothman's show parades was passing through the city and the cashier and tellers of the Traders' Deposit bank were taking up a sum entered the building soon after the parades went into the safe and got \$4,600.

A man in front of the bank gave a signal, which the clerk, Roy Korns, caught, and looking around saw a man. Korns gave the alarm and ran and hid him, while a teller, Charles Grubbs, saw and caught him, and took the money.

An officer then ran in and put the thief under arrest. He gave his name as Frank Williams, of Cincinnati. The man would not hide in the crowd and made his escape.

The prisoner was taken before Judge Groves, and, waiving examination, he was held on a bond of \$1,000 to make his appearance in the circuit court, which convened Monday week.

Excitement ran high, and, as he was entering the jail, a crowd ran after him calling for a rope, which made the prisoner tremble like a leaf.

He is 5 ft. 7 in., weighs a heavy man, weighs 190 pounds, and is about thirty-five years old.

He is wanted at other places.
